

FEATURES AND FUNCTIONS GUIDE

Edimaeg™ Hi-Power Blue-Tooth Transmitters Neckloop

The EDIMAEG new Hi-Power Blue-Tooth Neckloop produced specifically for CS-205 and CS-305 hidden Earpiece, maximum SSPL saturation sound pressure level (± 5 dB): 132 dB will be deafening, 10-30 times as those ordinary. Also can fold and put in pocket, this wireless Inductive distance is 60--150 cm. It may be the best product in the world.

It transmits the signal of a Mobile phone into a magnetic field covering either side of the user head. This field can be detected by a wireless EDIMAEG CS-205. Blue-Tooth Neckloop is very comfortable to wear and can be easily concealed under clothing. Its magnetic field allows the user total freedom of movement. This wireless distance is 10-15 meters or so, is very ample on many occasions.

BEFORE YOU BEGIN

Before using this product, read .the important Safety and Legal information pamphlet and follow its instructions.

Take a moment before you get started to familiarize yourself with your new H350 Hands free Blue-Tooth Transmitters.

①CHARGE YOUR BLUE-TOOTH TRANSMITTERS

Charge your Blue-Tooth Transmitter's battery for 2hours

1. Plug the Motorola charger into the end of the Blue-Tooth Transmitters.

The blue indicator light turns on when the battery is charging. It may take up to 1 Minute for the light to turn on. when the Blue-Tooth Transmitter's battery is fully charged(about 2 hours),the blue indicator light turns off.

2. Unplug the charger from the Blue-Tooth Transmitters.

NOTE: Blue-Tooth Transmitters is not functional while charging.

② PUT YOUR BLUE-TOOTH TRANSMITTERS IN PAIRING MODE

Before you can use your Blue-Tooth Transmitters, you must pair(link)it with you phone.

With the Blue-Tooth Transmitters power off, press and hold the call button for 6 to 10 seconds until the blue indicator light turns on and remains

Note: The blue light will flash as you press and hold the call button. Continue holding down the call button until the blue light is steadily lit.

Note: If you let go of the call button before the blue light is on and steady, ensure that you Blue-Tooth Transmitters is off before is before trying again.

Note: To turn off Blue-Tooth Transmitters, see "Turning Blue-Tooth Transmitters on/off" on the reverse side of this guide.

③ TURN ON BLUETOOTH ON YOUR PHONE AND PAIR WITH BLUE-TOOTH TRANSMITTERS

Your phone's Bluetooth feature is by default. To use your Blue-Tooth Transmitters, turn on the Bluetooth feature you phone.

TO turn on Bluetooth such as Motorola phones:

1. Select **(Menu)>Settings>Connection>Bluetooth Link>Setup.**
2. Scroll to **Power.**
3. Press **Change.**
4. Select **On.**
5. Select **Back.**
6. Select **Handsfree.**
7. Select [**look for devices**].

***Note:** Do not select **STOP**-you will automatically be taken to the text screen.*

8. Select **Motorola H350**
9. Select **yes** to bond.
10. Enter the passkey **0000** and select **OK.**

When your Blue-Tooth Transmitters and phone are successfully paired, the blue light on your Blue-Tooth Transmitters will change from steadily lit to flashing.

***Note:** This procedure is for most Motorola phones. For other phones, please see your phone's use's guide.*

④ TEST AND USE

Your phone and Blue-Tooth Transmitters are now paired and ready to make and receive call. To confirm they are operating properly, make a call:

1. Place the Blue-Tooth Transmitters over your ear. See “Wearing the Blue-Tooth Transmitters” on the reverse side of this guide.
2. On your phone, dial the number you want to call and pres the Send Key.
3. If your phone and Blue-Tooth Transmitters are successfully paired, you will hear ringing on the Blue-Tooth Transmitters.

After you have successfully paired your phone and Blue-Tooth Transmitters, you do not need to repeat these initial setup steps each time you use the Blue-Tooth Transmitters.

TROUBLESHOOTING

My phone does not find my Blue-Tooth Transmitters.

Make sure the blue light on your Blue-Tooth Transmitters is steadily lit when your phone is searching for devices (see step 3)

My Blue-Tooth Transmitters worked before but now it's not working.

Make sure your phone is on and the Bluetooth feature is turned on in your phone (see step 2); If the Bluetooth feature has been turned off or was turned on only temporarily, you may need to restart the Bluetooth feature (see step2). If you have confirmed the Bluetooth feature is on in your phone, pair your phone and Blue-Tooth Transmitters again (see step3) .

TURNING BLUE-TOOTH TRANSMITTERS ON/OFF

To turn your Blue-Tooth Transmitters on, press and hold the call button until the button.

Note: Blue-Tooth Transmitters may take up to 4 to 5 seconds to turn on.

To turn your Blue-Tooth Transmitters off. press and hold the Call button until the indicator light flashes rapidly and then turns off.

CHANGING VOLUME BUTTON ORIENTATION

If you change your Blue-Tooth Transmitters to wear on the other ear, you can also change the orientation of the volume buttons.

1. Turn the Blue-Tooth Transmitters power off.
2. Press the call button and with the volume button you want to assign as “volume up” button until the indicator light flashes twice.

The Blue-Tooth Transmitters power turns on.
